Sir:

INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. § 1.97(c)

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(c), Applicants bring to the attention of the Examiner the documents on the attached listing. This Information Disclosure Statement is being filed after the events recited in Section 1.97(b) but, to the undersigned's knowledge, before the mailing date of either a Final action, Quayle action, or a Notice of Allowance. Under the provisions of 37 C.F.R. § 1.97(c), this Information Disclosure Statement includes a statement as specified by Section 1.97(e).

The following constitutes the statement specified by 37 C.F.R. § 1.97(e). To the best of the undersigned's knowledge, each document listed in this Information Disclosure Statement was first cited in a communication from the Japanese Patent

Office in a counterpart foreign application, and this Information Disclosure Statement is being filed within three months of the mailing date of that communication.

Moreover, the following constitutes the statement specified by Section 1.704(d) required to avoid a negative patent term adjustment. Each item of information contained in this Information Disclosure Statement was first cited in the communication from the Japanese Patent Office in the counterpart application, and this communication was not received by any individual designated in § 1.56(c) more than thirty days prior to the filing of this Information Disclosure Statement. In accordance with 37 C.F.R. § 1.704(d), no negative patent term adjustment will result from this Information Disclosure Statement.

A copy of the Communication from the Japanese Patent Office is enclosed, along with a partial translation thereof. Copies of Japanese Patent Application Publication 2002-189597 and the article by Motomura are also attached, along with English-language translations of the abstracts thereof. In addition, copies of two U.S. patent publications, which are corresponding U.S. family members of Japanese Patent Application Publication 2002-189597, are listed on the attached Form SB/08 but not enclosed. Moreover, the Communication lists Japanese Patent Application Publication No. 2000-99441. This document is already of record, however, and is therefore not listed on the Form SB/08.

Applicants respectfully requests that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claims in the application and Applicant determines that the cited documents do not constitute "prior art" under United States law, applicant reserves the right to present to the U.S. Patent and Trademark Office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to Deposit Account 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
